David Fitzgerald

Retriever

Good morning David,

I would like to thank you again for your perfect timing and personal attention. Who would have known that your chance unscheduled visit to our office was just in the nick of time. We had just made arrangements to switch carriers for our credit card machine upon the advice of our banker. After listening to your presentation on how Retriever is specific to the medical and dental field and after checking with the Harbor Dental Society, we felt well informed and confident about staying with Retriever.

We are grateful for the protection that you offer those of us in this profession.

Please give our best to Trae and tell him that if he is ever out our way, we'll all go out to lunch again.

Sincerely,

[REDACTED]
